Reference: Construction Approval Extension Request prepared by Christopher P. William, P.E., PLLC, dated June 22, 2022, pursuant to the requirements of Env-Or 407.04(h)

Dear Vipulkumar Patel:

The New Hampshire Department of Environmental Services, Waste Management Division (NHDES) has received your engineer's June 22, 2022, request for a construction approval extension pursuant to the requirements of the New Hampshire Code of Administrative Rules Env-Or 400, Underground Storage Tank Facilities ("the UST Rules"). Specifically, it is requested that NHDES extend the May 3, 2021, conditional construction approval for the UST system installation at the subject facility. After reviewing the matter in accordance with the UST Rules, NHDES approves your request for extension.

The construction approval issued May 3, 2021, is hereby extended for one additional year, to expire on May 3, 2023. Please note that for operational approval of the facility to be granted, all requirements and conditions of the construction approval originally granted on May 3, 2021, shall be met. No substantial design changes to any part of the system shall be made without prior approval from NHDES in accordance with the requirements of Env-Or 407.04(e).
