Subject Site: **Hillsborough** – Mr. Mike's Hillsborough, 22 Henniker Street
DES Site #198904015, UST #0110384, LUST Project #1127

UST Closure Report and Addendum – UST Closure Report, prepared
by Atlas Technical, dated November 2021 and January 2022, respectively

Dear Mr. Browne:

The New Hampshire Department of Environmental Services (NHDES) has completed its review of the above referenced reports related to the removal of underground storage tanks

Tank #7	6,000-gallon	Diesel Fuel
Tank #8	8,000-gallon	Gasoline
Tank #9	8,000-gallon	Gasoline

and other information in our files regarding the petroleum released at the referenced site. NHDES approves the reports as meeting the requirements of [Env-Or 408.10](#).

NHDES will not require additional investigation or remedial measures **related to these tank removals**. Monitoring and investigative requirements related to previous petroleum releases must continue as directed by NHDES in the site Groundwater Management Permit.

Please note that this letter only applies to the tank closure activities at this site, but does not close the site. Site closure and the issuance of a Certificate of No Further Action cannot occur until the remaining contamination has been satisfactorily addressed.

Please do not hesitate to contact me if you have any questions regarding this letter.

Sincerely,

Andrew C. Fulton, P.G.
