## New Hampshire Department of Environmental Services Oil Remediation and Compliance Bureau Cost Recovery

The New Hampshire Department of Environmental Services (NHDES) has determined the responsible party identified on the invoice to be strictly liable for costs relating to the containment, removal and assessment of petroleum contamination at the site identified on the invoice.

Under New Hampshire State Law, RSA Chapter 146-A:3-a., any person who, without regard to fault, causes or suffers the discharge of oil, shall be strictly liable for costs relating to the containment and removal of the oil and the cleanup and restoration of the site.

The invoice includes, but is not limited to, all DES staff costs incurred, during the identified billing period, associated with oversight, review or management of any response or remedial action at the site related to the discharge of oil, for which you have been identified as a responsible party. Non staff costs for the identified billing period, such as DES contractor costs which have not yet been billed, may be included in a later invoice.

If you have filed an insurance claim related to this oil spill incident, it is recommended that **you contact your insurance company** to determine if the attached invoice is a covered expense.

In the event that the invoice is not paid, NHDES may refer this matter to the Office of Attorney General for collection pursuant to RSA 7:15-a.

If you are not able to pay within time period requested in the invoice or if you have questions about the details of the charges incurred, please contact Robert Bishop at (603) 271-3645 or by email at [Robert.B.Bishop@des.nh.gov](mailto:Robert.B.Bishop@des.nh.gov) .
