Reference: Construction Approval Extension Request prepared by Antonia Design, LLC, dated April 17, 2024

Dear Tanvear Chaudhry:

The New Hampshire Department of Environmental Services, Waste Management Division (NHDES) has received your engineer's April 17, 2024, request for a construction approval extension pursuant to the requirement of Env-Or 407.04(h) of the New Hampshire Code of Administrative Rules, Env-Or 400, Underground Storage Tank Facilities (UST Rules). Specifically, it is requested that NHDES extend the expiration of the January 31, 2023, conditional construction approval for the UST system installation(s) at the subject facility. After reviewing the matter in accordance with the UST Rules, NHDES approves your request for extension.

The construction approval issued January 31, 2023, is hereby extended for one additional year, to expire on January 31, 2025. Please note that for operational approval of the UST system(s) to be granted, all requirements and conditions of the construction approval originally granted on January 31, 2023, shall be met. No substantial design changes to any part of the system shall be made without prior approval from NHDES in accordance with the requirements of Env-Or 407.04(e).
