

**MEETING AGENDA**  
**November 14, 2023**  
**NHDES Office Building, 29 Hazen Drive, Concord**  
**Rooms 213/214**  
**9:00 – 10:00 AM**

**Granite State Landfill (GSL)**

**I. Introductions**

**II. Purpose**

**III. Topics**

**Overview of Application**

**Application Review Schedule**

**IV. Wrap Up**

---

Notes:

- NHDES kicked off the meeting with introductions. See attendance list.
- Adam Sandhal, CMA provided a brief overview of GSL standard permit application by reviewing site plans depicting the proposed landfill footprint and wetlands areas.
- Brief discussion of notifications to abutters and towns. GSL working with DOT regarding driveway access and associated stormwater structures. Applications to NHDOT and AoT have been made. Anticipate making Shorelands application later this month, and wetlands related applications before end of year.
- Discussion held on stormwater management including stormwater diversion, location of infiltration ponds and lined bioretention basins / rain gardens.
- Discussion held regarding landfill gas and leachate management, including infrastructure area.
- Types of wastes GSL proposes to receive include MSW, C&D, bulky waste, and special waste including asbestos wastes, contaminated soils and sludges. GSL intends to use certified waste derived products (CWDP) approved as alternate daily cover (ADC).
- Discussed traffic routes through Whitefield and possible truck staging / rest stop at NCES site in Bethlehem.
- No transfer station is proposed at the GSL site.
- GSL intends to haul leachate to Concord, Manchester, Franklin, Plattsburg, NY and Anson-Madison, ME wastewater treatment facilities.
- NHDES personnel outlined the permit application review process, and the public hearing process.
