Landscapers and land managers, are you interested in providing unique services, beautiful landscapes, and ecological benefits through your work? Mark your calendars now!

Landscaping for Water Quality Workshop

March 30 & 31, 2023

The workshop will be held in-person in the Keene area.

More details to follow soon!

- Participants will learn principles and best practices for creating and maintaining attractive, functional landscapes while protecting water quality in local lakes and rivers.
- The workshop includes presentations and practical sessions.
- This two-day workshop is designed for landscape professionals, watershed organization members, and community leaders responsible for managing land and water resources.

Event developed by NH Sea Grant, UNH Extension and NH Department of Environmental Services in partnership with Outdoor Rooms Ecological Landscape Design Services.

More information and registration details will be available shortly - Stay tuned!

Pesticide credits will be available pending state approval.

New Hampshire Certified Landscape Professionals certificates of completion also available.
