FROM: Matthew Bosiak, Division of Pesticide Control  
SUBJECT: Special Permit Application #19-214  
TO: DISTRIBUTION

Name                      On Behalf Of/For                      Type of Special Permit
Solitude Lake Mgt         Namaseke Lake Association/           Aquatic
                           Milfoil

An electronic copy of the above noted Special Permit package, including a current Long-Term Management Plan, has been uploaded to your ftp site. Would you and/or any appropriate person in your agency review this proposal and respond to the Division with your written recommendations, to include any conditions or restrictions that you would like applied to a permit, if issued. If you want to approve without comment or condition you may simply return the application cover sheet with the “Approve” box checked off adjacent to your agency.

Note also that a copy of this permit application package is being provided to the Piscataquog River Local Advisory Committee as per RSA 483.

A combination of herbicide treatments and alternative control practices has been employed at Namaseke Lake beginning in 2010. The most recent herbicide treatment was in 2017, where 42 acres were treated using Navigate (2,4-D) in September. DASH activities were conducted extensively leading up to this treatment and were again conducted in 2018, however no herbicide treatment was deemed necessary. The 2019 application proposes the use of Procellacor EC to be applied July 22nd or in September. The proposed treatment area is a maximum of 40 acres, with the final treatment area and date being determined by pre-treatment survey.

This proposal is subject to a public hearing under Pes 602.03. Notice of the pending application has been posted, with a deadline of May 21, 2019 for persons to request such hearing. If a hearing is requested, I will provide notification no later than May 22nd.

I would appreciate receiving your comments within 15 days of the date of this memorandum or by May 22, 2019. Please refer to the Application # in all return correspondence. Electronic responses are acceptable.

Thank you very much for your assistance. If you have any questions, please contact me (matthew.bosiak@agr.nh.gov or 271-3695).
