

N.H. Rivers Management Advisory Committee

February 10, 2011

The Honorable Andrew Renzullo, Chair
House Resources, Recreation and Development Committee
Legislative Office Building, Room 305
Concord, NH 03301

RE: HB 555: An Act relative to the designation of the Lower Exeter/Squamscott River as a protected river.

Dear Chair Renzullo and Members of the Committee:

The Rivers Management Advisory Committee (RMAC) is writing to express its unanimous support for House Bill 555, which seeks to designate the Lower Exeter/Squamscott River as a protected river.

The RMAC is a legislatively created body charged to work with the NH Department of Environmental Services (DES) on the administration of RSA 483, the RMPP. The Governor and Council appointed Committee is comprised of members from the business, agriculture, hydroelectric, municipal government, water supply, conservation, recreation, fish and game, and historical interests. Among its other responsibilities, the RMAC is charged with reviewing legislation relevant to the RMPP and with advising the DES Commissioner on the merits of such legislation.

The nomination to include the Lower Exeter/Squamscott River into the RMPA was submitted for consideration on May 24, 2010 and revised on June 21, 2010. Since then, the RMAC has met with the sponsor of the nomination – the Exeter River Local Advisory Committee (ERLAC) - to learn more about the river and discuss the nomination. The nomination of Lower Exeter/Squamscott River represents ERLAC's long-term objective to designate the entire Exeter/Squamscott River, the upper portion of which was designated in 1995. The RMAC conducted a site visit of the river with the sponsors on July 14, 2010 and convened a public hearing in Stratham in coordination with the Acting Rivers Coordinator to receive public comment on the nomination. At its September 28 meeting, the RMAC reviewed all nomination materials for consistency with RSA 483 and the nomination rules, as well as public and elected officials input.

The RMAC was impressed with the level of public support demonstrated for the nomination at the public hearing, and with the number of endorsements received from local, elected officials, with approximately 25 people in attendance. All of the testimony was in favor of the designation of the Lower Exeter/Squamscott River. Letters of endorsement were received from the elected officials of all three river corridor communities, Exeter, Stratham and Newfields within the nominated reaches. Throughout the nomination process no letters of opposition were received.

In conclusion, the RMAC unanimously supports HB 555, which would designate the Lower Exeter/Squamscott River into the Rivers Management and Protection Act.

If you have further questions, please feel free to contact me at (603) 466-8149 or kkimball@outdoors.org.

Sincerely,

Kenneth D. Kimball, Ph.D., Chairman
