

N.H. Rivers Management and Protection Program

N.H. Rivers Management Advisory Committee

October 13, 2015

Representative Norman Major, Chairman
House Ways and Means Committee
Room 202, Legislative Office Building
Concord, NH 03301

RE: **CACR 2 Relating to dedicated funds.**

Dear Chair Major and Members of the Committee:

The Rivers Management Advisory Committee (RMAC) is writing to express its conditional support for Constitutional Amendment Concurrent Resolution 2, relating to dedicated funds, providing that dedicated funds shall be used solely for the designated purpose of the fund. The RMAC supports the requirement that dedicated funds be used solely for the purpose of the fund as legislated, but does not support the provision that allows an appropriation of a dedicated fund for other than the fund's designated purpose with a 2/3 vote of each of the house and senate.

The RMAC and Rivers Management and Protection Program are concerned with the continuing practice of "raiding" dedicated funds for the purpose of balancing the budget and funding programs with no relationship to the purpose for which the funds were originally justified and collected. Some of these dedicated funds were created to support New Hampshire's environment and maintain or restore the natural ecosystems that residents and visitors rely upon. Redistributing these funds for non-related purposes is short-sighted, threatens continued public support for them, frequently has compounded fiscal impacts, and is counterproductive in the long run. For example, the New Hampshire Land and Community Heritage Investment Program was legislatively diverted from 2009 to 2012. Because this fund is frequently used to leverage additional funds, the fiscal impact of the diversion was cumulatively much greater. New Hampshire's landscape is one of the state's most attractive elements for residents, visitors and businesses alike, and it is critical that the funds collected to protect environmental initiatives are invested in environmental programs that support the long-term health of state's ecosystem.

The RMAC is a legislatively created body charged to work with the New Hampshire Department of Environmental Services (NHDES) to administer RSA 483, the Rivers Management and Protection Program. The Governor and Council appointed Committee is comprised of members from business, agriculture, hydroelectric, municipal government, water supply, conservation, recreation, fish and game, and historical interests. Among its other responsibilities, the RMAC is charged with reviewing legislation relevant to the Program and with advising the NHDES Commissioner on the merits of such legislation.

Staff:

Vacant
Rivers and Lakes
Coordinator, NHDES

Tracie Sales
Watershed Planner
NHDES

In conclusion, the RMAC conditionally supports CACR 2, which would require that dedicated funds be used solely for the purpose of the fund as legislated. The RMAC does not support the provision that allows an appropriation of a dedicated fund for another non-related purpose with a 2/3 vote of each of the house and senate. The RMAC supports that dedicated funds be used only for their legislatively intended purpose.

If you have further questions, please feel free to contact me at (603) 466-8149 or kkimball@outdoors.org.

Sincerely,

Kenneth D. Kimball, Ph.D., Chair
