

Lake Waukewan & Lake Winona Watershed Plan Kickoff Meeting!

*Monday, December 9th
5:30-7:00 PM*

Come learn about the planning process for the development of a Watershed Restoration Plan for Lake Waukewan and Lake Winona.

Find out how to contribute to this important effort to protect natural resources in this watershed!

The Lake Winnepesaukee Watershed Association and FB Environmental Associates will be presenting an overview of the steps involved in the development of a watershed restoration plan. The process of developing the watershed restoration plan will include an evaluation of existing lake and tributary data, current and future watershed conditions, and in-lake quality status to determine the sources and causes of lake impairment. The completed watershed restoration plan will provide recommendations for reducing current and future sources of phosphorus and other pollutants within the watershed.

**Meredith Community Center - 1 Circle Drive, Meredith, NH
Monday, December 9th 5:30 – 7:00 PM**

For additional information, please contact LWWA at 581-6632

Partial funding for this project is provided through a Watershed Assistance Grant from the NH Department of Environmental Services with Clean Water Act Section 319 funds from the U.S. Environmental Protection Agency.
