

GREEN INFRASTRUCTURE

for New Hampshire coastal watershed communities

EXETER-SQUAMSCOTT RIVER WATERSHED WORKSHOP

Using Green Infrastructure to Improve
Stormwater Management in Your Community

May 27, 2014

7:00-9:00 pm

Sandown Town Hall, 320 Main Street

*Presented by the Green Infrastructure Project in collaboration with
the Exeter-Squamscott River Local Advisory Committee*

WORKSHOP OBJECTIVES

- ✓ Raise awareness about the benefits of green infrastructure strategies.
- ✓ Learn about strategies to meet stormwater permit requirements and other no-cost resources available to municipalities.
- ✓ Discuss opportunities for municipal planning and actions, and implementation in the watershed.

This workshop is free and open to all coastal watershed communities and practitioners.

Please RSVP to Julie LaBranche at jlabranche@rpc-nh.org or (603) 658-0522. Provide your name, town/city and/or affiliation, email or phone number.

WORKSHOP AGENDA

7:00-7:15 p.m. Introductions

7:15-7:30 p.m. Overview of Water Quality and Water Resource Management in the Watershed

Short Break Followed by 2 Concurrent Sessions:

7:40-8:40 p.m. A. Function and Benefits of Green Infrastructure

7:40-8:40 p.m. B. Overview and Discussion of EPA Stormwater Permit Requirements

8:40-9:00 p.m. Wrap-up and open group discussion
