Gravel & Dirt Road Maintenance

Sept. 29, 2017 (Friday) 8:30 AM to 3:30 PM

Gilford Community Church, 19 Potter Hill Road, Gilford, NH

Program Topics:

Road Drainage and Managing

Runoff— What works and what doesn't? An overview of some best management practices (bmp's), innovative techniques, and operation and management procedures for managing runoff and road drainage. *Presenters: Mike Everhart, EJ Prescott; and James Houle, Program Manager, UNH Stormwater Center*

To Permit or Not to Permit? That is the Question— When do you need to consider applying for a permit to conduct road maintenance work? What are the jurisdictional areas adjacent to dirt/gravel roads? How should stream crossings and culverts handled? *Presenter: Jay Aube, Shoreland Protection Program Coordinator, NHDES Land Resources Program*

You Better Get Good Grades! Plus Road Surfaces and Maintenance— How do you select road surface materials and get the proper grade for efficient and long-term road maintenance? *Presenters: Russ Lanoie, Rural Home Tech; Richard Lee, Public Works Director, Town of New London; John Kamb P. E., Forest Engineer—Technical Services Team Leader, US Forest Service*

Homeowners Associations and Road Associations and Drainage Easements...Oh My!— An overview of how to establish and implement land use options to enhance stormwater and drainage BMP's to meet maintenance responsibilities. *Presenters, Mark Stevens, Land Surveyor/Mapper, NHDES Dam Bureau; Erik Newman, Director—Gallagher, Callahan & Gartrell law firm*

Demonstration & Site Visit— View specialized equipment, products, and techniques both on static display and in action. To view the Front Runner Rake in action will require you drive to a demonstration site a few miles from the event location; details will be provided the day of the event. *Presenters: Mike Everhart and Russ Lanoie*
