

## State Contracts for PFAS Analytical Services

The State of New Hampshire Department of Administrative Services has established contracts with four different laboratories for PFAS analytical testing services. **The contract terms and pricing are available to New Hampshire political sub-divisions (counties, cities, towns, school districts, special district or precinct, or any other governmental organization). The contract is also available to any New Hampshire nonprofit agency under the provisions of section 501c of the federal internal revenue code.**

Please note that public water systems must use EPA Method 537, 537.1 or EPA Method 533 for compliance sampling purposes. Schedules 1, 2 and 3 in the contracts found at the hyperlinks below use Method 537. Schedules 4 and 5 in the contracts at the hyperlinks below do not use EPA Method 537 or 533 and should not be used by the water systems. Upon request, the vendor may be asked to provide EPA Method 533 analyses at a quoted cost.

Per the contract terms, the price quote includes all sample bottles, coolers, forms and shipping/courier services that are required to complete PFAS analyses. Information about accessing the contracts is provided below.

### **Absolute Resource Associates, LLC**

124 Heritage Avenue #16

Portsmouth, NH, 03801

Contact: Aaron DeWees | [aarond@absoluteresourcassociates.com](mailto:aarond@absoluteresourcassociates.com) | 603-436-2001
